

## ☐ **Virtual appointments are now available for routine office visits.**

For your safety and convenience, our expert team can now see patients through scheduled virtual appointments on a secure platform. Virtual appointments are only available for routine office visits and cannot be used for emergency medical care.

Most insurers, including Medicare and Medicaid, are offering coverage similar to office visits for virtual appointments.

If you are interested in utilizing a virtual appointment for your upcoming routine office visit, let a member of your care team know. Our helpful staff will then get you enrolled and assist you in scheduling and completing your virtual appointment through your phone, tablet, or computer.
