# A Specialty Pharmacy Built to Serve Hospitals

Whether you need end-to-end solutions and patient-support services or simply dispense support, Biologics seamlessly integrates with your hospital to get your patients on their oncology or rare disease therapy faster.

"Biologics hasn't missed a beat with our patients — no delays and excellent service in all ways."

- Barbara M., R.N.

#### We understand hospitals have a wide range of needs.

We partner with each hospital to the extent they need, first conducting a needs analysis and then roadmapping how we can fill the gaps in their specialty pharmacy services.

We customize our offerings based on your current challenges and opportunities to make our partnership efficient, cost-effective and impactful.

### **Biologics' Partnerships With Hospitals**

- Are customized to your needs with convenient, a la carte solutions
- Can include 340B partnerships when appropriate
- Minimize the impact of payer or drug-distribution restrictions and referral issues that can result in prescription delays
- Positively impact patient care
- Improve overall patient satisfaction
- Are built on trust and transparency

### We Provide Value to Your Stakeholders

- Hospital shared services: We expedite referrals and support your staff
- Hospital specialty pharmacy staff: We offer dispense backup as needed
- Clinical staff: We partner with you on administrative tasks to allow providers to focus on patient care
- Patients: We support providers in offering the best possible patient care throughout the treatment journey

### We Support Providers' Important Work

Biologics is available and ready to work closely with your clinical and support teams. We share your hospital's mission of offering the best available patient care.

- Your direct point of contact offers customized support and communications about prescription status
- We become a seamless extension of your hospital
- You get full transparency through daily patient reports
- You benefit from proactive problem-solving as we learn to understand and anticipate your needs
- Your clinical staff has more time to focus on patient care as we provide administrative support

Connect with us to learn more about customized support tailored to your workflow and reporting options to support your OCM or data capture needs. "During my treatment, I felt so supported by the Care Team who called me regularly. The calls made me feel so good! They really made me feel like they were there for me. They have my love and affection."

- Marie, New Jersey patient
