## REMS Program

At Biologics, we know that patients on therapies that require a Risk Evaluation and Mitigation Strategy (REMS) can also benefit from our high-touch approach. When combined with a REMS program, **our approach ensures these time-sensitive therapies are handled with speed and care** — and you can be confident that your patients are getting the best possible outcome.

### What makes our REMS program different?

**Our Care Team.** Our designated REMS Care Team stays with patients throughout their treatment journey. When they work with the same pharmacist or nurse, patients feel cared about and develop a strong relationship with our clinical team. Plus, they are more likely to reach out when they need to. Our clinicians work closely with your team, so you can rely on us to report anything clinically significant to you immediately.

**Speed.** Our REMS Care Team ensures the therapy you prescribe gets in your patients' hands as quickly as possible. From the moment we receive your referral, there's virtually no handoff — elements of the prior authorization get handled by the same person with no delay. If your patient needs financial assistance, we have a dedicated person to assist with that, too. Once the referral is approved, our system flags it for the REMS pharmacist, so they see it quickly and counsel patients fast. When it's time to refill their prescription, a member of our team proactively reaches out to them. This ultimately allows for patient counseling if needed.

**Increased adherence.** Patients who have access to nursing care in real time stay on therapy longer and live longer.\* Our dedicated REMS nurses provide your patients with counseling, answer any questions that arise and help them manage any side effects.

To view our full inventory, including therapies requiring REMS, scan the QR code or visit [biologics.mckesson.com/specialty-drugs-list/](https://biologics.mckesson.com/specialty-drugs-list/)

### Send us your next referral!

**There are 3 easy ways to start:**

**Fax:** 800.823.4506

**Phone:** 800.850.4306

**eScribe:** Biologics is part of the Surescripts network.

**Search within your EMR using:**

**Pharmacy Name:** Biologics

**Pharmacy Address:** 11800 Weston Parkway, Cary, NC 27513

**NCPDP:** 3430369

**NPI:** 1487640314
