Send us your referrals today.

We're contracted with over 500 payers and can help your patients with financial assistance. If for some reason we're not in network, we'll immediately send the prescription to a specialty pharmacy that is.

To expedite the referral process and ensure timely medication shipment to your patient, please provide the following when sending a prescription:

- The prescription and explicit start date
- A written diagnosis, primary diagnosis code (ICD-10) and stage of disease for the prescribed medication
- Clear dosing instructions: total dose, quantity, frequency (qd, bid) and refills
- A description of the patient, including:
  - Height and weight
  - Date of birth
  - Mobile phone and caregiver contact information
  - Copies of the front and back of all insurance cards, including prescription and medical, and demographic fact sheet, including the patient email
  - List of all current medications
  - Clinical information that supports the treatment decision, including pathology or laboratory reports, treatment history, and a description of the treatment plan
- For Nurse Practitioners or Physician Assistants, please include the name, NPI# and DEA# of the supervising physician
- Patient navigator/office contact(s) information
